I have a table Persons that has both a userID and a groupID column. I need to display the persons in a view with the group they belong to. I thought that I could use `$this->Person->Group->find('list')` to get all the groups they belong to. But how can I query all users from their groupID and then get all the Persons that belong to them? A: `$this->Person->find('all', array('conditions' => array('Group.groupID' => $this->Group->id), 'fields' => array('User.userID',`
